OUR COLUMNEA LIST,

the most extensive one in the world, now proudly offers all fourteen of the new College Bred Columneas announced at Ithaca, New York, July 6, 1963.

- | | | |
|--------------------|--|---------------------|
| 'AURORA'. | Upright, floriferous, long blooming month after month with yellow flowers striped red. Dark green leaves are red beneath. Excellent in pots. | Plants \$3.00 |
| 'CAMPUS FAVORITE'. | Almost everblooming, upright plant with vivid red flowers. A cross between <i>C. affinis</i> and <i>C. sanguinolenta</i> , better than both. | Plants \$2.00 |
| 'CAMPUS GEM'. | Trailing plants with reddish orange flowers over a longer season than <i>C. hirta</i> the pollen parent. The seed parent was <i>C. tulae</i> . | Plants \$2.00 |
| 'CAMPUS QUEEN'. | Our Spring 1963 introduction and still the best compact, branching Columnea of really compact habit for pot culture. Red flowers. | Plants \$3.00 |
| 'CAMPUS SUNSET'. | The 14th new Cornell hybrid Columnea, selected by popular request. Red-edged yellow flowers against wine-red leaves. Seasonal. | Plants \$3.00 |
| 'CANARY'. | Flowers of deep, rich yellow color borne from October to March on upright, spreading plants that do well when grown in pots. | Plants \$2.00 |
| 'CASCADILLA'. | Four different species are blended in this double hybrid which is vigorous and attractive. Large vivid red flowers, dark leaves. | Plants \$3.00 |
| 'INDIAN SUMMER'. | A sturdy, spreading plant with large flowers that are strong red above, reddish orange underneath, generously streaked with yellow. | Plants \$2.00 |
| 'KATSURA'. | The only Columnea with variegated foliage, an exotic effect with the bright red flowers that change to deep pink with age. Slow growing. | Plants \$5.00 |
| 'ONEIDAN'. | Vining plant with reddish orange flowers, erect in the axils of glossy green leaves, in late winter and early spring, 3 inches long. | Plants \$2.00 |
| 'ONONDAGAN'. | An excellent plant of spreading habit suitable for growing in pots. Vivid red flowers with yellow undersides, long period of bloom. | Plants \$2.00 |
| 'ORANGE BEAUTY'. | Reddish orange flowers over a long period on sturdy, erect, branching plants. A distinct flower color among Columneas. | Plants \$2.00 |
| 'RED ARROW'. | A floriferous hybrid with vivid red flowers having a brilliant yellow lip. Pink hairs cover the corolla. Light green waxy leaves. | Plants \$3.00 |
| 'TIOGAN'. | A spreading plant with upright tendencies. Narrow leaves like <i>C. linearis</i> , the seed parent, show off the warm pink flowers. | Small plants \$3.00 |

OTHER NEW COLUMNEA OFFERINGS

- | | | |
|-----------------------------|--|---------------|
| 'ELMIRAN'. | Mr. Gay's cross between <i>C. crassifolia</i> and <i>C. Moorei</i> . Rangy but attractive with glossy leaves, red flowers on stems which arch upwards. | Plants \$3.00 |
| 'SNAKE CHARMER'. | Lyndon Lyon's cross between <i>C. gloriosa</i> and <i>C. microphylla</i> with large scarlet flowers on small-leaved vines. Blooms in winter. | Plants \$2.00 |
| 'HARVARD WINDOW'. | First offering under a cultivar name of the <i>C. x Woodii</i> cross introduced by us in 1960. Sturdy plants, red and yellow flowers. | Plants \$1.50 |
| 'YELLOW DRAGON'. | Lyon's cross between <i>C. gloriosa</i> and <i>C. verecunda</i> , named and introduced by M. J. Kartuz. Popular red-striped yellow trailer. | Plants \$2.00 |
| <i>C. flaccida</i> | Trailing species from Panama with light green leaves on stems reaching three feet in length. First described in 1861. | Plants \$2.00 |
| <i>C. tulae</i> cv. 'Rubra' | A form of the Puerto Rican species having red instead of yellow flowers but otherwise resembling <i>C. tulae</i> cv. 'Flava'. | Plants \$2.00 |

BARGAIN SMITHIANTHA OFFERING

All Cornell Series Smithianthas are reduced in price, effective January 1, 1964, and are being closed out at one dollar per rhizome. See our 1963-1964 list for descriptions.

ABOVE PRICES are for shipment prepaid by third class mail when weather permits. Shipment will be made at other times at your risk or by other means if express, air mail, special handling or other fees are remitted. Small plants in 2-1/4-inch pots are normally sent.
